1. Store in a cool, dry location.
2. Store out of direct sunlight.
3. Protect pails and jugs from weather and other damage.
4. Store at a temperature between 40°F (4°C) and 90°F (32°C).

### SHELF LIFE:

2 years

### COLORS:

Clear and opaque colors  
See color chart

### DESCRIPTION

**C**lassic Elasto Coat deck coating line is a single component with an elastomeric product built in. Zero VOC waterborne opaque solid colors. Elasto Coat is formulated to use on pool decks, concrete surfaces, wood fences, balconies, decks, masonries, pavers, stones, block walls and bricks. It may be used for interior; exterior, flat & vertical surface applications in a wide range of climates. Excellent UV stability early water repellent and will not yellow Elasto Coat is designed as a long lasting deck coating that would be flexible with a built in anti-skid and yet very durable for high traffic areas. Elasto Coat is available in a smooth or clear finish ideal for applications on concrete restoration projects. A low maintenance product – provided the surface is properly prepared. Elasto Coat is very easy to apply by using a paint roller, environmentally safe, easy to apply & clean up. When using more than one gallon on the same job it is **HIGHLY** recommended to mix together in a 5 gal container at low speed. Ready to use has a built in texture with a medium sheen finish. Custom colors are available. **New concrete must cure for 28 days.**

### ADVANTAGES

Helps resist early water penetration
Waterborne zero voc & no fumes
High UV stability & flexible
Excellent adhesion & durability
High traffic area
Easy to clean & seal
Low cost, easy installation, low maintenance easy to clean
25 color available, smooth surfaces & custom color available
Can be sealed after 24 hours

### LIMITATIONS

Not for use on wet surfaces
Applications temperature should be between 50° F and 95° F
Must be installed over a clean dry surface
Do not allow freezing
High traffic area seal with recommended sealer
Surface must not contain moisture and efflorescence
Must use CW305 Super Eco-etch to clean surface, power wash with 28000 psi and rise well with water
